Section 1 - Introduction

This directory provides a list of Signature Advantage's network providers. To get detailed information about your health care coverage, please see your Evidence of Coverage.

You will have to choose one of our network providers who are listed in this directory to be your **P**rimary **C**are **P**hysician (PCP). The term "PCP" will be used throughout this directory. Generally, you must get your health care coverage from your PCP. Your PCP, in collaboration with your Nurse Practitioner (NP), is key to ensuring all your health care needs are met.

The "network providers" listed in this directory have agreed to provide you with your health care services. You may go to any of our network providers listed in this directory; however, some services may require a referral. If you have been going to one network provider, you are not required to continue going to that same provider. In some cases, you may get covered services from non-network providers. These include care for a medical emergency, urgently needed care, renal dialysis that you get when you are outside the plan's service area, care that has been approved in advance by Signature Advantage, and any services which were covered through the appeals process. The provider has a right to get his/her fees, but does not have a right to get them from you. Ask the non-network provider to bill us first. If you have already paid for the covered services, we will reimburse you for our share of the cost. If you get a bill from a non-network provider, you should not pay the bill. You should send the bill to Signature Advantage for payment, and we will let you know what, if anything, you must pay.

You must use plan providers except in emergency or urgent care situations. If you obtain routine care from out-of-network providers, neither Medicare nor Signature Advantage will be responsible for the costs.
